Transit time approx. 31 days (port to port)

Service NYK, Hapag Lloyd

Closing time 5 days prior to sailing

■ IMPORTANT REMARKS:

Door delivery in all Continental and Eastern Europe.

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

■ CROSS BORDER LCL EXPORT SERVICES

It is more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinian LCL wines are packed at the JF Hillebrand Chile LCL Platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better LCL service. Please contact JF Hillebrand Argentina or JF Hillebrand Chile for updates on the "Cross-Andes" services.

■ **OPERATIONAL GUIDELINE:** JF Hillebrand "Icelandic Desk" is able to confirm which Icelandic vessels can be used first, based on the last arrival of New World Wine or European LCL orders at JF Hillebrand selected platform in Rotterdam. An average lead time of 7 days between arrival in Rotterdam and departure with the liner shipping services to Iceland has to be considered, while confirming New World Wine and European LCL loads into an FCL consolidated container.

■ **IMPORTANT REMARKS:**

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

■ **CROSS BORDER LCL EXPORT SERVICES:**

The JF Hillebrand Group provides a number of cross border delivery services for deep sea LCL exports. Portuguese wines can be shipped out through the Spanish ports. Wine and spirit LCL orders coming from land-locked countries in Europe (Switzerland, Central Europe) can be shipped as LCLs through Le Havre, Rotterdam, etc... Please contact any one of our JF Hillebrand local offices for service updates.

It is more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinean LCL wines are packed at the JF Hillebrand Chile LCL Platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better LCL service. Please contact JF Hillebrand Argentina or JF Hillebrand Chile for updates on the "Cross-Andes" services.

Funchalense	13-Apr-12	16-Apr-12	19-Apr-12	or 20-Apr-12

■ IMPORTANT REMARKS:

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

■ IMPORTANT REMARKS:

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

■ CROSS BORDER LCL EXPORT SERVICES:

The JF Hillebrand Group provides a number of cross border delivery services for deep sea Lcl exports. Portuguese wines can be shipped out through the Spanish ports. Wine and spirit Lcl orders coming from land-locked countries in Europe (Switzerland, Central Europe) can be shipped as LCLs through Le Havre, Rotterdam, etc... Please contact any one of our JF Hillebrand local offices for service updates. It is more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinian LCL wines are packed at the JF Hillebrand Chile LCL Platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better LCL service. Please contact JF Hillebrand Argentina or JF Hillebrand Chile for updates on the "Cross-Andes" services.
