Important remarks:

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

Cross border LCL export services:

The JF Hillebrand Group provides a number of cross border delivery services for deep sea LCL exports. Portuguese wines can be shipped out through the Spanish ports. Wine and spirit LCL orders coming from land-locked countries in Europe (Switzerland, Central Europe) can be shipped as LCLs through Le Havre, Rotterdam, etc... Please contact any one of our JF Hillebrand local offices for service updates.

It is more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinean LCL wines are packed at the JF Hillebrand Chile LCL Platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better LCL service. Please contact JF Hillebrand Argentina or JF Hillebrand Chile for updates on the «Cross-Andes» services.

Important remarks:

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the JF Hillebrand loading port platform. This is determined by the Shipping Line's closing date and Export Customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the Vessel is expected to arrive at destination port.

Cross border LCL export services:

The JF Hillebrand Group provides a number of cross border delivery services for deep sea LCL exports. Portuguese wines can be shipped out through the Spanish ports. Wine and spirit LCL orders coming from land-locked countries in Europe (Switzerland, Central Europe) can be shipped as LCLs through Le Havre, Rotterdam, etc... Please contact any one of our JF Hillebrand local offices for service updates.

It is more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinean LCL wines are packed at the JF Hillebrand Chile LCL Platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better LCL service. Please contact JF Hillebrand Argentina or JF Hillebrand Chile for updates on the "Cross-Andes" services.
